

PUBLIC WATER SYSTEM STATISTICS

Instructions

Please return this original form by April 7, 2000 to the Department of Water Resources in the enclosed return mail envelope addressed to: Department of Water Resources, Room 252-2, P.O. Box 942836, Sacramento, CA 94236-0001 (Phone (916) 653-7912). Please note any significant events in your service area likely to affect water use, such as major price change, water shortage, annexation, or new industry, in the comments section at the bottom of the page.

Section 1 - General Information

Please check the information on the adhesive label; make any necessary corrections. List the communities served by the system; identify both incorporated and unincorporated areas. Estimate population served at year end (December 31).

Section 2 - Active Service Connections

Please give the number of active metered and unmetered connections at year-end. Use the definitions below to classify the connections by customer class. If the system serves any part of an incorporated city, classify the connections according to whether they are located inside or outside the city limits.

Section 3 - Total Water Into the System

Provide monthly summaries of self-produced and purchased supplies ***introduced into the system***. Do not include water used for ground water recharge or wholesaled to other agencies. If reclaimed waste water is delivered, please list separately in the space provided.

Section 4 - Metered Water Deliveries

Provide monthly summaries of ***metered*** water deliveries. Please do not make estimates. Use the following definitions to classify water deliveries by customer class.

Customer Class Definitions

Single family residential - Single family, detached dwellings.

Multi-family residential - Apartments, condominiums, townhouses, duplexes, and trailer parks.

Commercial / Institutional - Retail establishments, office buildings, laundries, schools, prisons, hospitals, dormitories, nursing homes, hotels.

Industrial - All manufacturing establishments.

Landscape irrigation - Parks, play fields, cemeteries, and median strips.

Other - Fire suppression, street cleaning, line flushing, construction meters, temporary meters.

Agricultural irrigation - Irrigation of commercially-grown crops.
